WORK EXPERIENCE

Full Stack Developer — NeuralArc Global Pvt Ltd, Coimbatore

Jun 2024 – Present

- Engineered scalable, production-ready UIs using React.js, Vite, JavaScript, and Redux Toolkit, reducing component re-renders and improving app performance.
- Designed and integrated 20+ RESTful APIs using Node.js and Express.js, supporting product management, order processing, and user authentication workflows.
- Implemented secure JWT-based authentication with role-based access control (Admin/User), strengthening application security across modules.
- Built full e-commerce workflows including product listing, shopping cart, checkout flow, and payment gateway integration.
- Developed and maintained database schemas and CRUD operations using MySQL and MongoDB for multi-module enterprise applications.
- Created a reusable component library (TextField, Dropdown, Dialog) adopted across 5+ internal projects, reducing development time by ~30%.
- Collaborated with senior developers on code reviews, performance optimization, and CI/CD deployment pipelines via GitLab.

Front-End Developer Intern — NeuralArc Global Pvt Ltd, Coimbatore

Mar 2024 – May 2024

- Developed interactive React.js applications including a digital clock, to-do app, calculator, and dynamic profile card, demonstrating state management proficiency.
- Implemented localStorage for persistent data handling and managed component-level state using React Hooks (useState, useEffect).

Web Developer Intern — VEBBOX Software Solutions, Coimbatore

Jul 2024 – Aug 2024

- Designed and developed responsive web pages using HTML5, CSS3, and JavaScript, meeting cross-browser compatibility standards.

- Collaborated on UI enhancements and contributed to improving page load performance and visual consistency.

PROJECTS

E-Commerce Platform (Full Stack)

- Built a full-stack e-commerce application with separate admin and user panels, featuring product management, shopping cart, order tracking, and JWT-secured authentication using React.js, Node.js, Express.js, and MongoDB.

Hospitality Management Checkout UI

- Developed a multi-step hotel management interface capturing guest information, room details, payment summary, and automated PDF receipt generation using React.js and dynamic form state management.

Inventory Management System UI

- Created a dynamic inventory dashboard with category-based item selection, live stock overview, and integrated summary reports using React.js and real-time state updates with Redux Toolkit.

Portfolio Website & UI Clone Pages

- Designed and deployed a responsive personal portfolio and multiple pixel-accurate UI clone pages using HTML5, CSS3, JavaScript, and Tailwind CSS, demonstrating strong attention to design fidelity.
