PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience building and maintaining production web and mobile applications with React.js, Flutter, Node.js, Express.js and MySQL. Experienced in REST API design, OTP/JWT authentication, role-based access control, and real-time and live location features using Socket.IO, Firebase Cloud Messaging and Google Maps. Contributed end-to-end to MicroLab (home sample collection) and RedTaxi (cab booking), covering booking, dispatch, live tracking, fare, payment and admin workflows.

TECHNICAL SKILLS

Frontend & Mobile:	JavaScript (ES6+), React.js, Redux Toolkit, Vite, Flutter, HTML5, CSS3, SASS, Tailwind CSS, Bootstrap
Backend:	Node.js, Express.js, REST APIs, Socket.IO, JWT Authentication, OTP Authentication, RBAC, CodeIgniter
Database:	MySQL, MongoDB, Schema Design, CRUD Operations
Integrations:	Firebase, Firebase Cloud Messaging (FCM), Google Maps, GPS / Live Location Tracking
Tools & Practices:	Git, GitLab, Postman, VS Code, npm, Figma, Adobe XD, Agile, Debugging, Code Review, Production Deployment

WORK EXPERIENCE

Full Stack Developer — **NeuralArc Global Pvt. Ltd.**, Coimbatore *Jun 2024 – Present*

- Develop and maintain production web and mobile apps, including MicroLab and RedTaxi, with Flutter, React.js, Node.js and MySQL.
- Design and integrate REST APIs and database schemas for authentication, booking, dispatch, fare, payment and reporting workflows.
- Implement OTP/JWT authentication, role-based access control, Socket.IO real-time updates, FCM notifications and Google Maps/GPS.
- Built React.js apps with Vite and Redux Toolkit, including e-commerce workflows (listing, cart, checkout, payment gateway) and a reusable component library adopted across 5+ internal projects, reducing development effort by ~30%.
- Debug, test and optimize services; support production deployments, code reviews and GitLab CI/CD.

Front-End Developer Intern — **NeuralArc Global Pvt. Ltd.**, Coimbatore *Mar 2024 – May 2024*

- Built interactive React.js apps (clock, to-do, calculator, profile card) using React Hooks and localStorage for state and persistence.

Web Developer Intern — **VEBBOX Software Solutions**, Coimbatore *Jul 2024 – Aug 2024*

- Developed responsive, cross-browser web pages with HTML5, CSS3 and JavaScript, and contributed to UI and page-load improvements.

KEY PROJECTS — NEURALARC GLOBAL PVT. LTD.

MicroLab — Home Collection Monitoring System | *Flutter, Node.js, Express.js, MySQL, Socket.IO, FCM, Google Maps, JWT*

- Developed customer and technician Flutter apps covering booking, slot scheduling, checkout, technician assignment, sample collection and completion workflows.
- Built Node.js/Express.js REST APIs with MySQL for bookings, technicians, slots, payments, history and profile statistics, secured with OTP login, JWT and role-based access.
- Implemented real-time technician dispatch over Socket.IO with accept/decline, timeout and availability handling, plus GPS tracking with Google Maps routing and reconnection handling.
- Integrated FCM notifications and managed the booking lifecycle, including customer OTP verification, lab processing stages, cancellation and PDF report access.

RedTaxi — Cab Booking Application | *Flutter, Node.js, Express.js, MySQL, Socket.IO, FCM, Google Maps, JWT, CodeIgniter*

- Developed customer and driver Flutter apps for OTP login, map-based pickup/drop selection, vehicle selection, fare estimation, ride booking, live tracking and trip completion.
- Built versioned Node.js/Express.js REST APIs with MySQL for authentication, drivers, vehicles, rides, fares, payments, ratings, earnings and notifications.
- Implemented sequential Socket.IO driver dispatch with offer tracking, timeout/rejection handling and double-assignment protection.
- Built configurable fare rules by vehicle category and zone, ride lifecycle (pickup OTP, cancellation, status history), payments, driver wallet, ratings and CodeIgniter admin features.

OTHER PROJECTS

E-Commerce Platform (React.js, Node.js, Express.js, MongoDB, JWT) • **Hospitality Checkout UI** (React.js, PDF receipts) • **Inventory Management UI** (React.js, Redux Toolkit) • **Portfolio & UI Clone Pages** (HTML5, CSS3, JavaScript, Tailwind CSS)

EDUCATION

B.E. Computer Science & Engineering — Arjun College of Technology, Coimbatore | CGPA: 7.77 *2021 – 2025*

HSC — G.H.S School, Ulkottai | 80% **SSLC** — G.H.S School, Ulkottai | 75% *2018 – 2021*
